```javascript
const CACHE = 'pro-v1';
self.addEventListener('install', e => {
e.waitUntil(caches.open(CACHE).then(c => c.addAll([
  '/',
  '/index.html',
  '/style.css',
  '/app.js',
  '/db.js',
  '/manifest.json',
  '/icon-192.png'
])));
});
self.addEventListener('fetch', e => {
e.respondWith(
  caches.match(e.request).then(cached => cached || fetch(e.request))
);
});
```
